PROFESSIONAL SUMMARY

Fourth-year BSIT student majoring in Programming with hands-on experience enhancing a client project, developing IoT applications, and contributing to web and mobile systems. Familiar with React, Django REST Framework, MySQL, Firebase, and ESP32. Seeking an IT OJT opportunity starting January 2027.

TECHNICAL SKILLS

- **Programming:** JavaScript, Python, Dart, C/C++
- **Frontend & Mobile:** React, React Native, Flutter, Tailwind CSS
- **Backend:** Django REST Framework, SimpleJWT
- **Databases & Cloud:** MySQL, Firebase Realtime Database, Supabase, Vercel
- **Networking & Systems:** Cisco Packet Tracer, Wireshark, Windows Server 2025
- **Tools & IoT:** Git, Github, VS Code, Arduino IDE, VMWare Workstation Pro, ESP32

PROJECT EXPERIENCE

Team-Coke: Beverage Distribution & POS Management System

- Enhanced a client-oriented POS and inventory system using React, Django REST Framework, and MySQL across trading, inventory, warehouse, returns, credit, and forecasting workflows.
- Improved UI consistency across modules and contributed to dark mode, dashboard widgets, transaction reservations, and functional fixes; personally developed the receipt-printing layout.
- Performed debugging, bug fixing, and end-to-end testing after changes to ensure existing functionality remained stable and helped prepare the system for client demonstration.

IoT Smart Watering System using ESP32 & Firebase

- Developed a working plant-watering system using an ESP32, soil moisture sensor, relay, and water pump with automated and manual control.
- Integrated Firebase Realtime Database and Wi-Fi for monitoring soil moisture and pump status through a React Native and Expo mobile interface.

AI Chatbot - Ordering System

- Collaborated on an AI-assisted ordering chatbot using Flutter, Django REST Framework, Ollama, and NLP.
- Contributed to the Django backend and Flutter integration.

EDUCATION

Cebu Technology University - Ginatilan Campus
Bachelor of Science in Information Technology — Major in Programming
Expected Graduation: June 2027

CERTIFICATIONS & TRAINING

Introduction to Penetration Testing — Certificate of Completion
Security Blue Team (now Centri) | March 2026
